Tivoli Seeking Volunteers for “Green” Committee

Tivoli... Village of Tivoli Mayor Bryan Cranna and Trustee Joel Griffith have announced the formation of a “Green” Committee for The Village of Tivoli.

The committee will be tasked with exploring new and innovative ways to further Green the Village of Tivoli and bring fourth new environmentally sound practices for the Village of Tivoli government and its residents.

Mayor Cranna stated, “The Village of Tivoli has a very strong record of being environmentally responsible. From our award winning reed bed system, to our utilization of wind power and new solar panels that will sit atop of our DPW headquarters, Tivoli’s concern for the environment has been constant.”

Some residents have come fourth to discuss the possibility of a community garden, composting, rain barrels, and other options to further ensure that Tivoli is environmentally friendly. Cranna and Griffith hope to act upon these ideas and others.

Trustee Griffith added, “In creating this new committee, Tivoli is hoping to tap the intelligence, creativity, and deep care our residents have for our community and its environment.”

Anyone interested in being part of this committee should contact the Village of Tivoli by sending a letter to the Village Hall at 86 Broadway, Tivoli, NY 12583 or via email Mayor@tivolinyny.org.
