

## Help us to create a vision for an enduring and well-loved waterfront park!

The village has completed the purchase of the waterfront property at the end of Broadway from the railroad. We need your help in creating the park that will be built there.

Please join the members of the Waterfront Committee on Thursday, October 21st, at 7 PM at Watts de Peyster Hall for a community meeting to discuss the park's development.

We welcome your ideas:

- How will we use the park? Should we have a dock, canoe and kayak storage, tables, or other facilities?
- What should the park look like in terms of landscaping, fencing along the tracks, or any facilities that we will build?
- What type of structure should we build to cross the tracks, and what should it look like?

We encourage you to come to this informational meeting, but even if you are unable to attend, we are still interested in any ideas that you or your family have.

After the meeting, you can submit written proposals, drawings, or models. All of your ideas will be displayed in the village hall. Proposals can be either brought to the clerk's office at the village hall or sent by e-mail to [clerk@tivoliny.org](mailto:clerk@tivoliny.org).

For more detailed information about the challenges of creating our park, visit the village website at [www.tivoliny.org](http://www.tivoliny.org).

This is an opportunity for you and your family to guide the future of our village. We invite your participation.
